**AN ACT  
CREATING THE PHILIPPINE ARBITRATION COMMISSION AND  
INSTITUTIONALIZING COMPULSORY ARBITRATION FOR SPECIFIC  
AREAS OF DISPUTE, AND FOR OTHER PURPOSES**

**EXPLANATORY NOTE**

Our Constitution grants to all persons the right to speedy disposition of their cases before all judicial, quasi-judicial, or administrative bodies. However, this right remains good only in paper and is currently infeasible given our present judicial system.

At the end of 2006, our lower courts have 716,040 cases pending. Five years later, at the end of 2011, the number of cases pending was reduced, though not significantly, to 614,888. On the other hand, 25,319 and 6,344 cases were pending before the third level courts and the Supreme Court, respectively at the end of 2011. The overall case disposal rate was not impressive either. The percentage mainly ranges below 50% which means case input or the influx of cases is greater than case output or the disposition of cases. Enhanced Justice on Wheels Program, the Small Claims Project and the Judiciary Case Management System are just a few of the continuous administrative and judicial reforms designed to further improve the case disposal rates of our courts.

It is also apparent that cases will be ultimately decided only after several years from their filing. The long and tedious process of a lawsuit costs a lot of money,

resources and time not only to the parties but also to the judiciary. The much-awaited justice has been dragged longer than it should be. Indeed, justice delayed is justice denied.

It is appropriate and timely to introduce mandatory arbitration to disputes involving medical malpractice, insurance law, maritime laws, intellectual property law and intra-corporate matters, or collectively known as the "Areas of Dispute".

These Areas of Disputes are logically included because of their peculiar nature and suitability for arbitration. For instance, medical malpractice cases often involve loss of people's lives. It is but unacceptable to fathom the reality of seeking damages for a claim that had been long buried, literally. The urgency of obtaining indemnity in maritime disputes cannot be overlooked as time is really of the essence, especially when they involve perishable goods and wastage of assets. Intra-corporate disputes on the other hand, would be best resolved in a manner that gives the parties greater autonomy and flexibility. At these cases involve disputes within the corporation, judicial intervention must be kept at the minimum. Intellectual property cases entail technical skills and highly specialized knowledge; hence, it is more proper to settle these with arbitrators equipped with expertise in the subject matter.

Arbitration is defined as a dispute resolution process wherein disputes are resolved out of court. It entails the use of a neutral third party – an arbitrator or an arbitration panel. Although the akin to that of the courts, the arbitration process is less formal and need not be bound by the strict rules of evidence. These parties are given the flexibility to agree upon the procedures that will govern the process, which results in parties having more faith in the integrity of the arbitration process.

Arbitration is not a novel concept in the Philippines. In fact, Republic Act 9285, otherwise known as "*The Alternative Dispute Resolution Act (ADR) of 2004*" promotes and grants the parties the option to resort to alternative dispute resolution such as arbitration. Executive Order No. 1008 (Construction Industry Arbitration Law), on the other hand, mandated arbitration as the default process for construction disputes. Accordingly, the Construction Industry Arbitration Commission has the original and executive jurisdiction over disputes arising from or connected to construction contract.

The mandatory arbitration before the Philippine Arbitration Commission would definitely alleviate the recurring problem of clogged dockets in our courts. Decongestion of cases will soon be realized as a number of cases could be taken out of the jurisdiction of the judiciary. Seeking remedies with the court directly without going through arbitration would merit *motu proprio* dismissal of the case. Moreover, resource that have been devoted to the cases involving the Areas of Dispute can now be shifted to other cases, resulting in a more efficient and expeditious manner of their disposition.

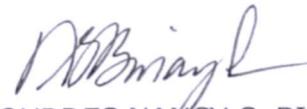

Compulsory arbitration is equally beneficial to the parties. Not only would the process be faster than a lawsuit, an arbitration or arbitral tribunal is equipped with expertise necessary to resolve the subject matter of the dispute. Moreover, unlike court cases that are open to the public, arbitration proceedings are kept confidential. Hence, the parties are assured that only those privy to the case shall have information about the records of the proceedings.

This bill is also in consonance with the core principles of the current administration – justice, fairness and inclusiveness. By enacting this bill, we will be able to deliver justice and fairness in the most expeditious manner. Also, Philippines is currently seen as the emerging "Investment Destination" of large multinational companies seeking to diversify their operations. With the greater

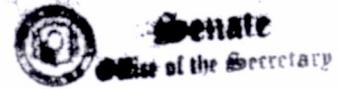

transparency and high comfort level of doing business in the country, foreign investors are more inclined to invest here in our country. Accordingly, this bill will definitely augment their decision to shift here as it affords them greater democracy in settling disputes.

Thus, this bill seeks to provide an efficient and expeditious dispute resolution, supplementing those already provided in the Alternative Dispute Resolution Act; achieve the goal of decongestion of court dockets which would ultimately result in cost savings and preservation of judicial resources; afford parties greater autonomy and flexibility in resolving disputes; and attract more investments in our country as a result of this sophisticated yet economical dispute resolution.

In view of the foregoing, the timely passage of this bill is earnestly requested.
